Risk management

- Period of the SGS II implementation rather short
- Tight time-schedules for applications and implementation
- Interest lower than expected and limited response to the Calls
- Narrow specialised subject area of Water Resources
- Effort to broaden the scientific area for grants
- Wide publicity
- 2 Calls
- “Fast –track” procedures to avoid further delays
- Good quality of submitted proposals

- IKY for **more than 60 years** invests in **human capital**
- **transparent, merit-based** processes
- **produces public value** for citizens and for the educational community.
- Hopefully within the next period of the EEA FM(2014-2021), there will be **funding** allocated to IKY **for more scholarship programmes**, for studies in the EEA countries in broader fields of knowledge.
